BRAND INTRODUCTION

HEISTON, Belonging to Shenzhen HaiSitong Optoelectronic Technology Co., Ltd., the brand operation center was established in Longhua, Shenzhen in 2019, dedicated to providing better services and creating more value for agent distributors. HEISTON focuses on one-stop research and development, manufacturing, and sales of mobile phone accessories, using original craftsmanship to create original quality. At present, HEISTON mobile phone LCD displays have independent intellectual property rights and appearance patents, and have been certified as qualified products by CCIC. The core competitiveness of HEISTON lies in technological innovation and professionalism. With a stable production base, advanced production equipment, and a complete management system, HEISTON has created a complete product line and excellent craftsmanship, quickly winning the favor of users with extraordinary quality and establishing a superior market image.

MISSION

Improve Maintenance Experience
Assist In Terminal Profitability

Focusing on improving the experience of maintenance technicians, pursuing the ultimate service like exploring the universe. We are always pursuing better ways to solve the pain points in the repair market, steadily doing everything well, helping terminal repair profits, and enhancing the stickiness between consumers and repair stores.

VISION

Become A Global Mobile Phone
Internal Repair Service Provider
Innovative Pioneer Brand In The Field

In the mobile phone maintenance industry, we create extraordinary strength, focus on researching and developing innovative products with the spirit of astronauts, tap into user needs, lead the healthy development of the industry, and bring more confidence and value to our partners.

VALUES

Seek Truth From Facts,
Focus On Professionalism continuously
Striving For Progress

Be down-to-earth and do everything well, building a professional team; Guided by terminal maintenance experience, focusing on research and design, driving sales growth, constantly striving for progress and learning, and giving back to customers with more professional services.

BRAND
SPIRIT

Curiosity · Exploration · Future

HEISTON interprets the brand spirit through the image of astronauts, representing the courage to challenge areas that others dare not attempt. Coolness is not only about appearance, but also about the things done themselves. Just like astronauts moving forward in the dark, deep, unknown, and dangerous space, they remain steadfast in their beliefs and move forward courageously.

Night Light mode

Scientifically anti-blue light Healthier eyes

The low blue light beads
can remove harmful blue light from the light
ensuring that the light is safe for your eyes
and your vision while playing for long hours

445-505NM Low blue light eye protection

High refresh rate is smooth No stuttering Silky experience

It supports high refresh rate to create smooth
visual experience and reduce eye strain.
Whether it is a fast-paced game or a video
watch, high refresh rate ensures the screen is smooth
and the picture is not blurry.
Make every interaction as smooth as flowing water
and the transition to the next screen is seamless.
Enjoy a silky smooth visual experience.

Anti-glare Even in bright light!

Under outdoor sunlight, the screen is not reflective,
it is clearer to see
the screen and more convenient to operate

Low blue light eye protection Relieves eye strain

Reduce eye fatigue caused by excessive screen
time. Scientifically anti-blue light technology
